## THE MARKETS OF THE WORLD.

### Views of a Veteran Thinker on the Subject.

**Editor Citizen**  
Cleveland, Wilson & Co and other tariff reformers talk and write glibly of the "markets of the world" that are to enrich our manufacturers, farmers and mechanics as soon as they tear down the "Chinese wall" and permit them to go forth and fatten on the fresh pastures beyond the great waters.

Will some of our free trade friends tell us where "the markets of the world" are, and if not mythical, why the ardent-eyed business men of England have not discovered them?

It is beyond dispute, that in free trade England, there are more unemployed to-day than at any time during the past fifty years, and that never before were her great industries in such a deplorable condition as to-day, and yet the "markets of the world" have been open to her for the past hundred years.

To what manner of feast are we invited by the free traders?

England, the oldest and greatest manufacturing nation on the globe, is starving and although many of the middle class entertained the idea that the organzied club concert would prevent a large attendance, this was quickly dispelled by 9 o'clock, when Prof. Harrington presided at the piano, and Miss Maud Sanderson led the vocal exercises.

At 8 o'clock the First Regiment band, always willing to lend assistance to any of the many local organizations, was called together and after playing several pieces on Second street marched to the hall and again rendered several more stirring pieces.

By this time the crowd commenced arraving, and although many of the middle class entertained the idea that the organzied club concert would prevent a large attendance, this was quickly dispelled by 9 o'clock, when Prof. Wendell announced the grand march.

The all boys' band, and when the grand march, so skillfully and perfectly led by Prof. Wendell and Miss Edith Remer, was over, there were at least 150 couples ready for the first number, a quadrille.

Everybody seemed to be happy, and everybody was happy, and when the last dance on the program rolled around the gray streaks were visible in the eastern sky.

The music was grand, and was rendered by Prof. Rappé's orchestra of five pieces. Prof. Wendell was the efficient door manager, while his committee consisted of C. V. Moore, John Brennan, C. A. Hudon, Thos. A. Finkel, George Gainsley and U. C. Granger.

The committee on arrangements were: Edward H. S. Knight, Thos. A. Finkel, Chas. Yundorf, F. H. Wendell and C. A. Hudon.

The reception committee were the officers of the Albuquerque Fire department, viz.: The chief, Asst. chief Mandell, Secretary, Shanon and Treasurer, Vonck, and the following gentlemen: Sam. McLaughlin, foreman, and L. H. Chapman, foreman-elect, of the No 2 hose company; John Arntzen, foreman, and John J. Jacobs, foreman-elect, of the Hook and Ladder company, and Messrs. Knight, Farm, Cushing, Green, Moore, Scottie, Brennan, Powers, Wilson, Macbeth, Leue, Stucke, Crammer, Metahan, Lookout and Dunbar.

The Scott Moore hose company, No. 1, was headed by the following gentlemen: S. N. Debrick, foreman, P. B. Green, first assistant foreman, U. C. Granger, second assistant foreman, Richard Powers, secretary, Chas. Yundorf, treasurer; Frank Yundorf, un-named.

The company is one of the oldest, if not the oldest, fire organization in the city, and the ladys are all volunteers, who at the risk of life and limb and often at great personal inconvenience, gallantly respond to the alarms from the big bell in the tower at the corner of Railroad Avenue and First street.

After the Orpheus club concert was over a large number joined the merry waltz and thus swelled the attendance considerably.

Headquarters of our best citizens, including many merchants, having tickets to the annual ball of the firemen and remained away. Last evening it was just the reverse, to the delight of the firemen, and those who usually were corresponding by their absence, were present and took part in the dances.
